

Lowcountry Made will host an opening reception for local artist Analisa Chase's new seascape collection, "Atlantic Waters," at the new Lowcountry Made shop in Bluffton, located at 14 Johnston Way. The shop is located within the Juice Hive's central location in Bluffton Village.

"The Atlantic Water's Collection is comprised of seascapes representing the Atlantic coastline from the rocky formations and darker hues of New England to tropical Florida where shelly sands emerge and the water shows its crystal clear brilliance," said Analisa Chase, a local Bluffton artist.

"The majority of paintings were drawn from memories gathered on my own travels. For others, I referred to photos saved over many years that were sent to me from family members and friends. The entire idea for putting together this collection of paintings came from my ever growing passion for the most powerful and awesome element on the planet—water."
